April 6, 1953

Mr. Norman L. Maguire  
434 Maple Street, N.E.  
Albuquerque, New Mexico

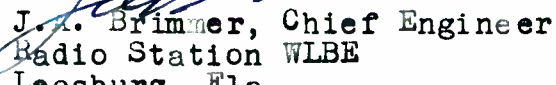

Dear Mr. Maguire:

Received your letter of April 6th, but just now getting around to answering. I remember receiving a similar letter from someone in your city ~~som~~ that must be one one you had reference to; however I do not recall receiving more than one, so probably did not get yours.

The information you enclose is correct as you have it. I remember in the case of the other letter, I was rather suprized that we could be heard that far. I was unusually interested in your and your friend's letters because of that fact. We do not encurrage DX letters here as most DX become so insistant that there letters be answered as to become a nusence and we have never heard from any of them after that, however as I mentioned, yours was of unusual interest and was worthy of the time and trouble of answering.

Hoping to hear from you again at some future date, and urging you to give us a listen any time the second Tuesday in each month at 04:40 to 04:50 AM, I remain,

Sincerely yours

  
J. A. Brimmer, Chief Engineer  
Radio Station WLBE  
Leesburg, Fla.
