Dear Sir:

We have received your letter reporting your listening at our programation of the past December, the 17th, from 11:38 to 12:05 Central Standard Time. Your description of our emisions is O.K., and if you have recorded our transmisions, we have no reasons for doubt that you say.

Therefore, there is a detail you would must check. That day we suspend our transmisions at 11:00, and your description correspond to our programations from 9:00 to 10:00. On the other side, I am not quite shure that Costa Rica Time is CST, so, maybe, that would be the basis for your error.

But this is a secondary subject. We are very pleased in give you a confirmation of your listening, the same you call QSL, I think.

I congratulate you for be the third American reporting our station. All of them have occurred in the last year and we think it's because a recent improvement in our output power and, of course, to exceptionals receptions conditions in addition to very fine receivers. The others listeners are from Illinois and Washington. As you can see, soon we will be covering all the U S territory.

I wish you very fine receptions in your future and will be be happy receiving news from you anytime.

Sincerely,

Juan Sepúlveda Troncoso/Chief Programmer
