WM. L. HAYES,
Chief Engineer

HARTWELL, GEORGIA

Nov. 28, 1947

Mr. Norman L. Maguire,
434 North Maple,
Albuquerque, New Mexico.

Dear Sir:

Thank you very much for your letter reporting on the reception of our station during our test broadcast of November 9th., 1947.

At 3:49 we did make a station break but the title of the selection was BEER BARRELL POLKA, and not Elmer's Tune. If you can recall that tune, I will be glad to confirm your report. For the life of me, I can not remember how Elmer's Tune sounds. If you can identify the piece as the BEER BARRELL POLKA, I will be glad to forward our confirmation by return mail.

We intend making another test broadcast sometime in February, and I will start this one at 4:15AM E. S. T. as I believe KFNB will be off the air by that time.

Thanking you, we are,

Most cordially yours,

WKLY BROADCASTING COMPANY
