WM. L. HAYES,
Chief Engineer

HARTWELL, GEORGIA
Dec. 5, 1947

Mr. Norman L. Maguire,
434 North Maple,
Albuquerque, New Mexico.

Dear Sir:

Your letter of 1 December 1947 reporting on the reception of test broadcast of 9 November 1947.

Your data on the selection agrees with our log, and we are very happy indeed to for-
this confirmation of same.

No date has been set for the February test, but will publicize it in the NRC and NNRC bulletins, and surely hope that you will be able to hear us once again. This time I think the schedule will start after KFVB leaves the air.

Thanking you again for your report, we
are,

Most cordially yours,

WKLY BROADCASTING COMPANY

By *Wm. L. Hayes*
