This is to verify that WKMA was operating at the time that you were tuned in Oct. 13. Your report was pretty garbled due to picking up KXRJ, Russelville (Little Rock) Ark. with ~~that~~ that damnable tone it sends out all the time, and some other station who signed off 33 minutes before my freq check was over.

*something was
QSD-ed!*

All northern reports said that our signal faded out at 301AM, altho we were on the air until 334AM. Where our signal went to then, goodness only knows. Only other report was from from some guy who lives a $\frac{1}{2}$ mile away from the xmtr. who fell asleep at regular sign off time and was awakened by his radio that was left on. Big deal!

'Bye now and lets hear from **you** again!

Sincerely, yours,
Charles L. Widney
