December 5, 1957

Dear D-X'er:

In reply to your letter concerning the signal broadcast by
KRSL on November 22, 1957, we were on the air at that time.

Enclosed, find a coverage map of Kansas' most powerful 250
watter.

Thanks for the report,

Erv KRSL

I must say, that was a most complete report, you must have had
4 solid years of shorthand in school. Thanks for the complete
report. Yours truly was the announcer and I'm sorry about the
fade out as our mikes are truly uni-directional.
