Mr. Norman L. McGuire
135 William Street
Glastonbury, Connecticut

Mr. McGuire:

Received your letter of June 18th. Appreciated getting your DX report and will give you some details on our station.

We have a 2 element directional antenna system with our major lobes to the East, South, and West. We have received several DX reports from your area. We have even received a DX report from California on one of our regular scheduled programs. We begin operations at 6:00 a.m. and sign off at 10:00 p.m. on week-days. We very frequently go on the air after 1:00 a.m.

Thank you again for your DX report.

Sincerely,

Ben Segrest
Ben Segrest
Chief Engineer.
