Dear Sir:

This is to confirm your reception report of K T R Y on January 15, 1948 during Equipment Test Program between 2:52 - 3:03 A.M. CST. Sorry to have waited so long to answer the report but as usual in the case of a new installation there isn't much time to do anything but work day and night. Hope you didn't give up waiting for an answer.

Equipment here consists mainly of Gates studio and transmitter units. Tower- guyed 285'. Program tests began January 20, 1948.

Thank you for the fine thorough reception report and hope to hear from you again in the future. At present we are conducting nightly freq. measurement tests between 1:05 and 1:15 A.M. CST.

Sincerely,

RADIO STATION K T R Y

S. E. Eckhardt
