member!

Dear Norman:
 So glad to hear from the state of New Mexico... Another state gets
 checked up on my map. Things are beginning to look a little brighter for
 the Western Hill of the U.S.A. West still got Utah, Nevada, Id. & Dakota.
 Washington, Oregon and then the Western Hill of U.S. is complete with the
 exception of Hawaii and Alaska. Someday...
 Glad to report your report is reported correctly. I'm amazed that we
 had 2 4-0 in there... that's most unusual. Our best so far has been an
 2 3 in Amarillo, Texas. As you can see, when you superimpose our 4 4-0's
 coverage map on a USA map, we wind down your way but also, wind more
 towards Louisiana than N.Mex. WTC makes a beautiful signal west. I am
 finding this out through the many reports I've received.

February 18, 1963.

Best of luck
Prayer
