Dear Norman:

So glad to hear from the state of New Mexico...another state gets chalked up on my map. Things are beginning to look a little brighter for the Western Half of the U.S.A. Must still get Utah, Nevada, N. & S. Dakota, Washington, Oregon and then the Western Half of USA is complete with the exception of Hawaii and Alaska. Someday....

Glad to report your report is reported correctly! I'm amazed that we had S-4-6 in there...that's most unusual. Our best so far has been an S-3 in Amarillo, Texas. As you can see, when you superimpose our ~~sketch~~ coverage map on a USA map, we swing down your way, but also, swing more towards Louisiana than N.Mex. WLTC packs a beautiful signal west. I am finding this out through the many reports I've received.

THANK YOU...FOR YOUR RECEPTION REPORT DATED February 18, 1963.
WE ARE PLEASED TO KNOW THAT YOU HAVE HEARD WMHI IN YOUR AREA. THIS IS TO VERIFY YOUR REPORT THAT WMHI WAS IN OPERATION AT THE TIMES YOU INDICATED.

BELOW IS A ROUGH SKETCH OF OUR COVERAGE MAP INDICATING BOTH PRIMARY AND SECONDARY CONTOURS AND SOME OF THE CITIES WITHIN OUR SERVICE AREA.

WMHI OPERATES WITH A POWER OUTPUT OF 500 WATTS INTO A 2-TOWER DIRECTIONAL ARRAY ON 1370 KCS. OUR DAYTIME STATION SIGNS OFF AT LOCAL SUNSET, BUT WE HAVE ESTABLISHED THE FOLLOWING SIGN-ON TIMES:
