

Radio Station WPGC
1421 Southern Ave S.W.
Washington, 19, D.C.

October 3 19 60

Mr. Norman L. Maguire

1420 Columbia Drive N. E.

Albuquerque, New Mexico

Dear DX'er ,

we are pleased to confirm your reception of Radio Station WPGC broadcasting on
August 29, 19 60 from 0617 am to 0630 am .

WPGC studios are located at Bradbury Heights , Maryland. This is at the southeast boundry
line that seperates Washington D.C. and the state of Maryland.

WPGC transmitter is located at Oakland , Maryland. This is one mile east of the WPGC
studios.

The WPGC transmitter is a Radio Corporation of America , Type BTA-10H. Our antenna system
consists of two vertical , uniform cross-section , guyed , series excited steel towers.
These towers are 165 feet (or 95.5 electrical degrees on 1580 Kc.) high. They are spaced
233.45 feet (or 135 electrical degrees on 1580 Kc.) from each other on a line bearing 20
degrees from true north. Our maximum signal is beamed 130 degrees from true north.

Sincerely Yours,

C. J. Farrell xmtx
