434 North Maple,
Albuquerque, New Mexico

Dear Norman:

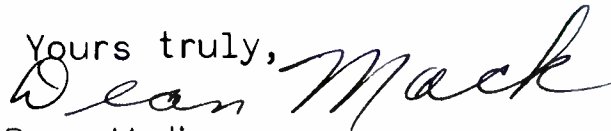

In reply to your most welcome letter, received a few days ago, I am happy to confirm your reception of our transmission the morning of Dec. 8th. for purpose of frequency check.

Your program details parallel the entries on our log all the way except for the fact that our times entered on our log are one minute behind your entries with the exception of your first entry, it is the same as ours. Confirmation is the main thing as far as you are concerned, but I thought that I might pass this other information along.

Thanks loads for the information you sent us, and I want you to know that we at KFDW are always interested in information of the sort contained in your letter.

If we can be of any other service to you, we're ready and willin!

Yours truly,

Dean Mack
Chief engineer
KFDW

P.S. My pen is broken and I don't know how to type, so please excuse the clashes between the typewriter and yours truly.
