

RADIO STATION KEYZ

BOX 1240

WILLISTON, N. DAK.

NOVEMBER 18, 1959

Dear Mr. Maguire:

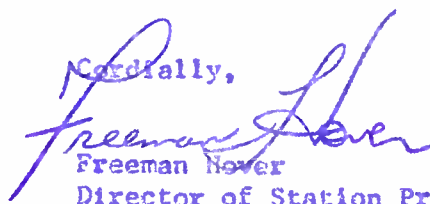

This is to verify your report on our DX broadcast which was aired from 1:30 to 2:30 AM C.S.T. on November 2nd. Your very comprehensive report was appreciated.

The portions of the program which you heard were nearly the same as heard by other DX'ers who reported in to us. All reported some difficulty in reception because of interference by stations in Miami and Ft. Worth.

Reports on the DX broadcast were received from Colorado, California, Oklahoma, Illinois, New Mexico, Washington and Iowa. From the number of reports received, reception apparently was best in northern California and Washington. No reports came from the eastern section of the country.

KEYZ enjoyed participating in this DX venture for members of the radio clubs. If you should like to have another at a future date, we would enjoy working with you.

Cardially,

Freeman Nover
Director of Station Promotion

FH:bd

Thanks, Norman, for your very comprehensive report on what you copied. You bet, highway 85 runs right through here up through Canada. I have been on all of it except north of Williston to Canada. As you may know, it is called the International Parks Highway Now and gradually being renumbered 385 in all states it passes through.

Best regards. If you run into Russ Sauer at the All State Insurance office in Albuquerque, tell him I said hello and I expect a Christmas greeting with a letter in it this year....We were school chums together!
