Good Morning Norman,

Just a short line to confirm that  
KNLV was conducting a frequency check  
at 12:00:10 ~~A~~ May 12<sup>th</sup> CDT.

Being from Albuquerque my self I found  
it interesting that our signal was  
able to carry over the Sandia's. At  
the time of our freq. check it was  
a clear night in in Ord, and a  
temp of 41°.

Thanks for your letter dated 11 May  
1979
