SOUTHWEST NETWORK

7 March 1950

Dear Norman.

Thanks a lot for your fb report on the second of March. Your DX report checks 100% with our log for that date. Believe you are the first report we have had from New Mexico.

The station hit the air here on February first, using Gates equipment throughout, with a shunt fed 150' vertical.

If you are ever in Portales, would like to have you stop by and see us.

Very truly yours,

*Mack McCreary*
