Sept 22, 1957

Mr. Norman L. Maguire
1420 Columbia Drive NE
Albuquerque, New Mexico.

Dear Sir:

Many thanks for your letter of reception on K-RAC.

You tallied out exactly. It happened that it was yours truly doing the announcing on that shift.

K-RAC has been on the air since June 10, 1957. We are operating on 1270, with 1,000 watts. We are using a Gates Job. In fact we are @ates all the way with the exception of two off-breed recorders. We have a 192' shunt fed tower, with 150 foot radials.

We have had exceptionally good reports on coverage. We normally get into Artesia and up as far as Socorro. South we go int El Paso with about 250 watts coverage and into Roswell with a readable signal. But in the next mail after your report, we received one from Winslow, Arizona where a boy has been reading us on a home made transistor job..so we must be pumping some kilowatts into this rig.

Thanks again for the report, and hope to hear from you again. If you're down this way, drop in and we'll show you a station that's really hand-made from the building up.

Regards

Lyman C. Brown, Owner
Radio K-RAC
