

Mr. Norman L. Maguire  
1420 Columbia Drive NE  
Albuquerque, N.M.

Dear Mr. Maguire,

I ran across your letter and realized it had not been answered. Our chief engineer is out of town and apparently he did not have time to answer your letter of June 5 before leaving.

Let this letter serve as confirmation that you did receive KZUM...1280 kc's. We are 5000 Watts daytime. We have been on the air since July 1 1958. Not being an engineer I cannot tell you anything more concerning the technical aspects of the operation that would be of interest to you.

The person you listened to at that time was Bob Tabor...program director.. formerly with CKCW in Moncton, New Brunswick.

Thank you for your letter and may you continue to receive at will our broadcasts. We would be delight in hearing from you again.

Best regards,

*Pat Patterson*
