ASTORIA, OREGON

February 23, 1943

Mr. Norman L. Maguire  
600 N. University  
Albuquerque, New Mexico

Dear Mr. Maguire

Received your DX report and am happy to say it is correct. It was part of the Frequency Check program given on February 16, 1943 from 1:00 to 1:30, P.W.T., by Louene Williams.

The weather here was clear but not very cold. The temperature was about 40 degrees F.

Thanks again for the report and here is hoping you have good luck DXing.

Sincerely yours,

*Ray H. Williams*
