Dear Norm,

You keep a better log than I do. We're always glad to hear from the DX'ers.

We are entirely RCA equipped with accent on the 250L transmitter. We series feed a quarter wave stick (150 ft.) with 250 watts. Our operating schedule is as follows:

Daily: 6:00 am to 12:00 midnight.

Sunday: 8:00am To 11:00 pm

Frequency checks: Every third Friday of each month 1:00am PST

Incidentally, the piano numbers you logged were selections played on a couple of 45 RPM players which we're in the process of adapting to broadcast use. (Stinkin' were'nt they?)

Thanks once again from all of us,

Yours for more DX,

Bob Suing
