Pottstown Broadcasting Company

Lamb Building

Pottstown, Pa.

247 High Street

January 29, 1952.

Mr. Norman L. Maguire
434 North Maple
Albuquerque, New Mexico

Dear Mr. Maguire:

I want to thank you for your report on reception of our station. Your reception is verified by our station log.

This is very unusual reception on the broadcast band and speaks very well for your Hammarlund HQ-129X receiver.

Our transmitter here is located on a hill North of town. The antenna is a uniform cross-section tower 200 Ft. high. The transmitter and accessory equipment are Gates. Our weather here at that time was clearing, after a rain, and a temperature of 50 degrees.

Very truly yours,

R. Mullen
Director of Engineering
