Dear Mr. Maguire:

Thanks very much for your letter dated April 16 on our Frequency Check. We were on the air from 1:30-2:00AM CST, Wednesday, April 16, 1952, with equipment and frequency check. We check every third Wednesday morning at 1:30 AM Central Standard Time. We use an RCA transmitter and 190 ft. Windcharger Guyed Antenna.

Since our studios are separate from our transmitter, we tape a 30-minute show to present on this frequency check. All the music is band music since we have found that band music seems to ride the interference better than anything else.

I sincerely trust that this is enough information to verify your report. Thank you very much for letting us hear from you.

Very truly yours,
