Albuquerque, N.M.

Dear Norman:

Thanks so much for the detailed confirmation of our DX of the 19th, 1951.

Acting for Curtis Lamarr, as he certainly has his hands full at this particular time, what with the FCC breathing heavily down his neck--and the great loss of sleep to all of us trying to get this baby on the air for keeps, I'd personally like to express the thanks of the staff to you. Curt is our Chief Eng.

At the moment we are using a Non-directional; and will be DT only until FCC sees fit to give us Full Time. We hope that that will be soon. At the moment we have affiliated ourselves with Liberty. Are using RCA Thesaurus Library; and think we have some good programs for the listeners. That remains to be seen. However, from the amount of local telephone calls we recieved this morning of Saturday Sept 22, I'd say that WOK€ is here to stay.

Happy Listening and many thanks again for the very nice QSL.

Regards

*- Ed Craig*
