Mr. Norman L. Maguire  
434 North Maple  
Albuquerque, New Mexico

Dear Sir,

This will acknowledge your letter of reception of this station in Albuquerque, New Mexico. According to our log, your report is correct.

KGVL is located about 2 miles north of Greenville in an air conditioned Ranch Style building. All our equipment is composite with exception of the frequency monitor, modulation monitor, and limiting amplifier. We have a vertical antenna 185 feet high.

If you are ever in this part of the Lone Star State, we would be happy to have you drop by and let us show you around the station.

Very truly yours,

  
Stafford E. Davis  
Chief Engineer
