

10,000 Watts of Country Music Power

May 14, 1980

Norman L. Maguire
6105 Del Campo Place NE
Albuquerque, New Mexico 87109

Dear Norman;

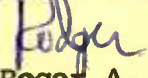

Thank you for your reception report of April 28, 1980.

We began nighttime operation with our new directional array on April 14, with 2,500 watts of power and six towers.

I am sending along some information on our coverage area and nighttime transmitting facilities for your files.

Thanks again.

Yours truly,

Roger A. Tighe
Chief Engineer
