Dear Mr. Maguire:

Thanks very much for your interest in a verification from KRBC. I am very sorry for the delay but it seems that your first report never reached us or maybe it was misplaced before reaching me. I verify all reports myself and I am sure I would have your report if it had reached me.

I have checked your report and it seems to check ~~xy~~ very favorably with our log for that period. We are glad to verify your report.

Very Truly yours,

J. B. Casey
