NORFOLK, VIRGINIA

December 29, 1936

Mr. Norman Maguire
101 Hope Street
Stamford, Conn.

Dear Mr. Maguire:

We have checked your report of reception of WTAR with our station log and are pleased to find it correct, as this letter will verify.

WTAR was the first station to operate in the State of Virginia, and is Virginia's only high-fidelity radio station today.

The present location of the transmitting facilities is 1.7 miles from the Norfolk City limits on the Virginia Beach Boulevard.

WTAR is licensed to operate upon a power of 1000 watts unlimited hours from the new transmitting site in Glen Rock, Princess Anne County, Virginia, upon completion of construction.

Thank you for your report.

Cordially yours,

Lee Chadwick
DX Correspondent
WTAR Radio Corporation
