Albuquerque, New Mexico

Dear Mr. Maguire:

We are indeed sorry that you are receiving this correspondence a little late. However, since you wrote, the Chief Engineer here has left for another job and since your letter was filed, we are just getting around to answering it now.

We are glad to hear that you received our station on 1490 kcs. on September 9, 1951. We conduct these tests every month with the Commercial Radio Monitoring Company of Kansas City, Mo. usually on the 15th of the month.

Best of luck with your DX reception and here's hoping that you will receive us again some night on your "rig".

Sincerely yours,

A handwritten signature in cursive script that reads "James E. White".

James E. White
Chief Engineer
