Dear Mr. Mann,

Thank you for your letter of October 18th, giving a reception report of this station, which I am pleased to acknowledge as correct.

To answer your queries: - We now broadcast continuously 24 hours a day except Sunday, when we close down at Midnight and commence again 6:00 a.m. Monday. We have a directional antenna and protect slightly to the south with a sharp null for CFQC in Saskatoon. Two towers, space 7/8 wave length.

Thank you again for your interest in sending a report.

Yours truly,
