Mr. Murray C. Mann,  
3702 South 17th,  
Omaha 8, Nebraska.

Dear Mr. Mann,

In answer to your report of hearing KEXO on a frequency check, yes we did broadcast a frequency check July 2, 1959, between 12:55 am and 1:10 am MST. This will verify your listener report.

This is the second listener report on our frequency checks to come from the Omaha area. Sometime last year another Omaha listener heard us. At this time of the year our monitoring service in Kansas City complains of difficult reception of our signal, so you were lucky indeed to pick us up.

Many thanks for your report, and best of luck.

Very truly yours,

*Jim Eicher*
