"LIN" means *Lincoln*.

February 21, 1959

Murry Mann  
3702 So. 17th  
Omaha 8, Nebraska

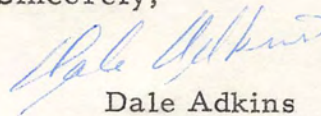

Dear Murray,

I am pleased to verify your report on reception of KLIN from 12:29 until 12:32 on the morning of 17 February 1959. Your complete report seems to be one hundred per cent correct.

You mention interference from other stations. If you could furnish me with some more detailed information on our daytime reception, I would be happy to hear from you. For instance, if there is objectional interference from other stations, what stations, et cetera.

Thanks again for the report, and good DXing to you.

Sincerely,

Dale Adkins  
Chief Engineer  
KLIN Radio  
Lincoln, Nebraska
