Mr. Carl Mann
6711 South 139th Avenue Circle
Omaha, NE 68137

Dear Carl:

Greetings from WCKY, Cincinnati, Ohio!

This is to verify your long distance reception of WCKY Radio, AM-1530, on Friday, March 23, 1990.

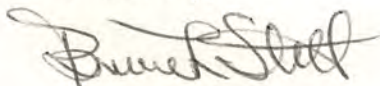

WCKY's 50,000 watt night-time signal is heard regularly on 1530 kHz from the northern slopes of Canada to the southern shores of South America, as well as in Africa, Western Europe and the Scandinavian countries. We have also had our signal picked up in New Zealand and Australia.

WCKY broadcasts only news and information programs. Listeners are invited to participate in our various programs by telephone.

Our station first went on the air in September, 1929.

As a souvenir, we are enclosing a copy of WCKY's night-time primary coverage map, as well as a station format sheet and a magnetic note holder in the shape of a telephone.

Sincerely,

Bruce L. Still
Operations Manager
