

Confirming reception of the WFIL-AM DX Test,
February 12, 2012
Operating at 5KW, Daytime Directional Pattern
Rene F. Tetro, Director of Engineering & IT

Presented to:

Carl Mann, Omaha, NE

Reception Details:

12:03am Upward sweeps
12:11am Upward sweeps
12:16am Laser "bullet" tones
2:27am Upward sweeps
12:50am Up and down wavering tone, getting lower and slowing in tempo as it progressed. This was heard best.

(Note: Thanks for the MP3's. It's always great to hear exactly what you hear. -Rene')
