Dear Listener,

Thank you for your report of reception of Radio Australia on 05/09/89 commencing at 12:15:00 UTC.

We have pleasure in confirming that the main frequency to which you were listening (6020) was callsign VLG broadcasting from Brandon (one of RA's four major sites on the Australian continent).

Enclosed is a program guide for the coming months and some other items which may be of interest. We hope you enjoyed listening to Radio Australia on this occasion and will continue to do so in the future.

Yours faithfully,

A handwritten signature in cursive script that reads 'Eric Caffery'.

Frequency Management Unit,
Radio Australia.
