Dear Carl:

I am pleased to verify your recent reception report as follows:

Station Received:	CFVP Calgary, Alberta, Canada
Station Location:	50° 54' N , 113° 52' W
Station Frequency:	6030 kHz
Station Power:	100 watts
Reception Location:	Omaha, Nebraska, USA
Received by:	Carl Mann
Reception Date/Time:	March 24, 1996 0746 - 0800 MST

Note that the station you received was not CKMX, but CFVP, a shortwave rebroadcaster of CKMX programming. CKMX broadcasts on 1060 kHz with a power of 50 kW day and night.

Thanks for taking the time to send us your report.

Yours truly,

Ken Pasolli
Technical Director
Standard Radio Inc. Calgary Division

Standard Radio Inc., P.O. Box 2750, Station M, Calgary, Alberta T2P 4P8

Ph: (403) 240 5800 - Fax: (403) 240 5801

CFVP has one of the very few private stations on the short wave band in Canada and has been heard in nearly every country in the world since its installation in 1931. In the spring of 1982, the hand built tube type transmitter was retired and a new Solid State LPB 100 watt transmitter has taken over the duties of CFVP. The program material is presently a rebroadcast of CFCN AM and is fed into a 41 foot (12.3) quarter wave antenna.
