*RADIO INTERNATIONAL  
MANILA, PHILIPPINES*

**FAR EAST BROADCASTING COMPANY (Philippines), Inc.**  
Box 1, Valenzuela, Metro Manila, Philippines

Januari 25, 1982.

Dear friend,

It is good to hear from you! We thank you for taking the time to send your reception report. It is with joy that we verify it with the enclosed QSL card.

Perhaps you would be interested to know a little about FEBC Radio International in Manila. At present we have eleven transmitters for the different services. Seven transmitters are used for our shortwave operation. Two transmitters are in the medium wave band, one of which is for the domestic service and the other one is intended for international coverage. The remaining two transmitters are in the domestic SW band and in the FM band.

Our constant aim in broadcasting is to acquaint people with the Person of Jesus Christ. We do not seek to win people to a religion, but to a person. The Bible tells us that we have to "believe on the Lord Jesus Christ" to be saved from our sins and the punishment for them. The Lord Jesus said: "I am the way." By that He means, He is the way to Heaven. Will you believe on Him? We would be glad to hear from you again, and would try to answer any questions you may have. And, questions or no, we would be grateful for any further reception reports as you have the time to listen and send them.

Sincerely,

FRED M. MAGBANUA, JR.  
Director

Mrs. Alida Landman-Vlast  
By: QSL Secretary
