Trans World Radio
Box 64, Manzini
Swaziland

FREQUENCY 7295

TIME 0343 - 0420 GMT

Many thanks for your signal report of 22.10.82

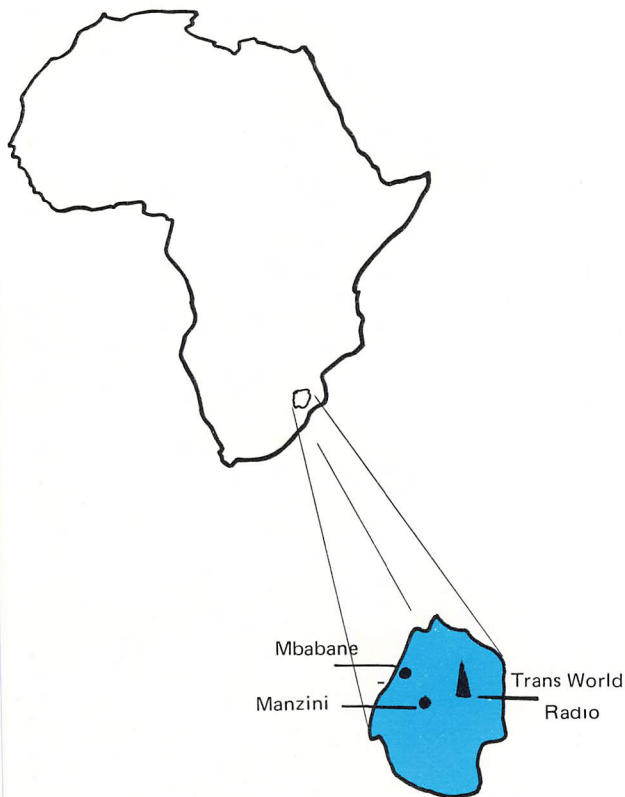

You have been listening to the transmissions of **Trans World Radio** beamed in more than twenty languages from Swaziland (see map opposite). **Trans World Radio**, founded by Dr Paul E Freed, President, owns and operates this multi-transmitter facility equipped with highly directional log periodic and curtain antennas designed to cover East and Central Africa, Southern Africa, the Indian subcontinent and China.

Trans World Radio is an international, interdenominational non-profit organisation dedicated to broadcasting the gospel of our Lord and Saviour Jesus Christ from strategically placed transmitting installations in various parts of the world.

In addition to our station you have heard from Swaziland, **Trans World Radio** transmits from Monte Carlo, Monaco, Bonaire, Netherlands Antilles; Cyprus; Guam and Sri Lanka. Eighty percent of the world's population is within reach of these stations. The Good News of Jesus Christ is broadcast in more than seventy languages, using five million watts of transmitter power.

Aside from the thrill of logging a new station, we hope you have enjoyed listening to our programmes and that you will become a regular listener to our broadcasts.
