OSL - Verification of Reception

Thank you very much for your reception report which we have recently received.

Christian Voice is a charity, and has only a small team of staff. We have been pleased, but surprised, at the number of letters from shortwave enthusiasts around the world. As such, we have found ourselves at times overwhelmed by the quantity of responses required, and we would like to apologise for any delay incurred in answering your letter.

Radio Christian Voice is very pleased to confirm the accuracy of your report, dated 15/3/96 concerning our shortwave transmissions from Zambia.

It is encouraging to hear from those that enjoy what they can hear of us. We pray that the Lord will bless you as you continue to tune in to the Voice.

For your information, Christian Voice is based 35 km South West of Lusaka, Zambia's capital. We are on an 8000 acre farm, and the buildings here include transmitter, generator, studio, production, technical services, canteen, administration and multi-track recording studio. The site is full of mango and jacaranda trees, and although still a building site, is nearing completion. From our site, we look down over the farm to the Kafue river, which flows into the Zambezi river still raging from the Victoria Falls, and into the vast man made Lake Kariba..

We are right in the bush, about 25 km down a dirt road. It is a haven for bird watchers, common species including the red hornbill, blackeyed bulbul and blue waxbill. Aside from the farm animals, we see bushbuck, wild tortoises and rabbits, as well as numerous snakes such as pythons and black mambas on the farm and occasionally on the radio station!

Zambia is a truly democratic country, with multi-party politics and the next round of national elections are scheduled to take place later this year. The country is peaceful and stable, but economic hardship persists despite positively following international monetary advice.

For safaris, Zambia is fast becoming a top destination for those wanting to see "*The Real Africa*". On safari, you'll rarely see another human being, although you will see lion, elephant, rhino, buffalo, leopard and many other big game animals. Walking safaris are one of the highlights, and there are many vast game reserves worth visiting, including the Kafue National Park and South Luangwa National Park.

Christian Voice launched on 1st December 1994, and broadcasts at 100 kW using a Continental 418 E transmitter and TCI log periodic array antenna. In April 1996 an FM service was opened, covering Lusaka and central Zambia on 106.2 MHz.

Our programming includes gospel music, Bible teaching, general interest programmes such as travel, health and agriculture. The programmes are mainly made here in the Christian Voice studios and are made by Africans for Africans.

Our broadcasting schedule from 1 July 1996 is 0400-0700 UTC on 3330 kHz; from 0700-1600 UTC on 6065 kHz; and from 1600-2200 UTC on 3330 kHz.

Thank you for your letter and we hope you have another chance to tune in again soon.

Signed for Christian Voice (Zambia) Ltd: L. Nanyangwe (Miss) Date: 30/7/96
