Broadcast Station: SANDLANE, SWAZILAND. P.O. BOX 99, AMSTERDAM, TRANSVAAL, TELEX 43-7873 S.A.

Dear Alan

Many thanks for your report and I am pleased to report that you received our broadcast on 17 February, 1975 on 4980 KHz at 0402 GMT.

The Rig is a Gates TX run at 50 KW output level and we are also on 6155 KHz from 0700 gmt and on 3223 KHz from 1800 to 2200 gmt. Maybe you could DX on those frequencies also?

Very best wishes

Stan Gobbi  
Chief Engineer
