Mr. Stanwood R. Morse
R. R. No. 3
Bradford, Mass.

Dear Mr. Morse:

Thanks for your report of reception of our station. I have checked our logs and this letter will serve as your confirmation.

We are one thousand watts now but have already received our permit to increase our power to five thousand watts and have bought a new Collins transmitter. We would like to run a special program just for our DX friends when we make the change to our new operating power.

Thanks again and good DXing to you always.

Yours sincerely,

Charles Tucker
