October 22, 1957

Mr. Stanford Morss
Route 3
Bradford, Mass.

Dear Mr. Morss:

This letter will verify your reception report October 14, 1957.

We received our C.P. Oct. 2, 1957 and began commercial operations on Oct. 19, 1957. As you stated this could be a record.

We use Collins equipment at both of our stations and have had wonderful service from it as you know Collins makes one of the finest "Ham" rigs on the market today.

Thanks again for the report and maybe we will meet again at another spot on the dial real soon.

Yours truly,

Ned Butler
W T L S
