Selma, Alabama 36701

January 9, 1974

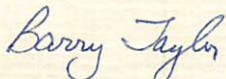

S. R. Moss
Route 3
Bradford, Mass. 01830

Dear Mr. Moss:

Although your signal report was sketchy, the tape you sent allows us to confirm your reception of our signals on December 21, 1973. As you probably know, WTQX is a 5,000 watt, daytime station.

Enclosed is a contour map.

Sincerely,

Barry Taylor
Chief Engineer

BT/jl
