

KDDA

1560 KC  Serving Dumas, Desha County, Arkansas

P.O. BOX 215 • DUMAS, ARKANSAS 71639

Nov. 13, 1967

Mr. Stanwood R. Morse
RR # 3
Bradford, Mass. 01830

Dear Sir:

Thank you very much for your report on the test we ran on October 2, 1967 from 2 to 3 A.M. C.S.T. Please accept our apologies for being so late in answering your letter but we were waiting for a new brochure that the Chamber of Commerce is preparing on our city, but as yet no brochure.

KDDA operates from local sunrise to local sunset CST with a power output of 500 watts from a 100' tower on 1560 KC. We went on the air on April 21, 1966 therefore are relatively new. We use a Gates BC-1F transmitter cut back to 500 watts, we also are non-directional.

Dumas is located in Southeast Arkansas ninety miles from Little Rock on U.S. highway 65 in the heart of the Delta Country. Our chief livelihood is farming cotton, rice and beans but also have several industries located here.

Your report checks out correct and verified by us. Thanks again and if you are ever down this way don't hesitate to drop in for a visit. You are always welcome.

Best Regards,

Alan W. Eastham

P.S. Mail received on this test was very gratifying. We received approximately 50 letters, the most distant points being California, Washington, Rhode Island, Florida and two from Canada.
