Dear Sir:

Thanks for the report of our frequency
check program of march 15.

Your report was correct, weather here was
clear.

We have an RCA 250 K transmitter feeding
a shunt tower 180 feet high.

Will gladly answer any DX reports on
our programs. The broadcast march 15th
was not a regular test. Our regular time
is the second monday of every month at
3:25 - 3:40 AM CWT.

I had a report from New Zealand and also
from some of the guys in the South Pacific
Area last month, some DX, Hi.

Sincerely,

John M. Van Horn
