

OSCEOLA BROADCASTING CORPORATION

TELEPHONE 860 OSCEOLA, ARKANSAS

January 2nd, 1956.

Mr. Stanwood R. Morss
Route 3
Bradford, Massachusetts.

Dear Stan: -

Thanks for the fine report of reception of our Special DX Test for the National Radio Club. A check with our logs indicates that your report is 100% correct, so we are happy to verify your reception of Radio Station KOSE, Osceola, Arkansas, December 20th, 1955, from 2:02 a.m. to 3:00 a.m. Central Standard Time on 860 kc/s.

Jimmy and I really enjoyed putting on this Special Program, and we hope you enjoyed it. So far we have received 36 reception reports from across the country. We had several S/9 reports from the East.

KOSE operates with a kilowatt in the daytime, shooting it out over a non-directional antenna 280 feet high.

Thanks again for your report. Good DXing!!

Cordially,

Scot
Scooter Segraves
DX Co-ordinator.
