June 19, 1959

Mr. S. R. Morss
Route 3
Bradford, Massachutes

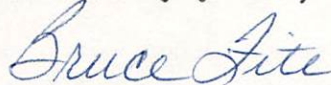

Dear Mr. Morss:

The management and staff of the all new K T C S Radio in Fort Smith, Arkansas wishes to thank you for your letter acknowledging the experiment we performed on June 12.

May I say that the information contained in your letter was quite accurate. We received several cards and letters, but yours was the signal received at the farthest distance.

Again, we wish to thank you for taking the time to write— as it would be quite useless for us to perform experiments with our new equipment if no one were willing to help.

Sincerely yours,

Bruce Fite, Manager
