Bradford, Massachusetts

Dear Sir:

Thanks very much for your reception report, dated January 25, 1949. We have checked our logs and found that your report is correct in every way.

KWAK is using Gates equipment throughout and have a 250-C transmitter in operation. Our tower is Guide Wincharger tower, 207 feet tall. Our ground system consist of 120 copper radials, 200 feet long.

We have a monthly frequency check, the fourth Tuesday of each month at 1:45-2:00 AM CST.

If you should hear us again, I would appreciate another report.

Very truly yours,

Jack Warden  
Chief Engineer
