

ARKANSAS AIRWAVES COMPANY

*Cotton Belt Building
North Little Rock, Ark.*

June 12th 1946

S.R. Morss
R-3 Bradford, Mass.

Dear Mr. Morss

I hope this letter will suffice for the verification you desire on your report on receiving our signal during the test period June 3, 1946. As you no doubt know we have just installed a new station here, and appreciate any comments and reports that we may receive in regard to our signal.

We have a 250-C Gates transmitter and are using a 215 foot overall height Wincharger tower located on the banks of the Arkansas River. Part of our ground system is in the river.

Thank you again for your report.

Yours very truly,

MELVIN P. SPANN
Chief Engineer-KXLR

GREATER LITTLE ROCK'S MUTUAL STATION
