Dear Sir

I am happy to confirm your reception of our 1340 K.C. transmitter signal. You were very fortunate as that was the last freq. check we will make on 1340 K.C.'s. Since then we have changed freq. to 580 KC & increased power to 5,000 watts daytime non directional & 500 watts night time directional pattern. Our freq. check is still scheduled for the same time on the first Monday of each month.

Respectfully
E. E. Stough
