THE PEFFER STATION

PEFFER BUILDING • STOCKTON 7, CALIFORNIA • 5000 WATTS • AFFILIATED WITH THE COLUMBIA BROADCASTING SYSTEM

December 17, 1946

Mr. S. R. Morss
Route 3
Bradford, Massachusetts

Dear Mr. Morss:

We were pleased to receive your report of reception on our program of the 4th of December. The selections of music and announcements were from a dance remote in Hollywood.

K G D M, now in its twentieth year of broadcasting, operates on 1140 kilocycles with 5000-watts of power from 6 AM to 12 midnight, Pacific Standard Time. You heard our signal while we were on directional antenna, which is used before 7:15 AM and after 4:45 PM during the present month. The directional antenna is set up to beam our signal approximately Northwest-Southeast. This parallels the Sacramento-San Joaquin Valley.

Many thanks for the report. We hope you may tune our way again and enjoy the programs as well as your primary interest as a DX-er.

Best wishes for the holidays and the New Year.

E. Smith
Manager
