GEORGE E. LINDMAN, Manager

Mr. S. R. Morss
Route 3
Bradford, Mass.

Dear Mr. Morss,

Thank you for your letter reporting reception of KITO on February 7, 1950. Our chief engineer noted your information and asked me to reply.

We've checked our program log against the facts you noted and find your report correct. This is verification of your reception of KITO.

We have made some improvement in our ground network, which apparently accounts for the increased range of our signal.

Sincerely,

K I T O

Arnold Benum
